Subject: RE: update on wild rice water quality standard analysis

;

Katrina: thank you for the message regarding MPCA's progress on the wild rice standard, beneficial use, and permitting approach (copied below). It has been a little over a year since the agency last met in consultation with Minnesota tribal staff about this issue, and I am wondering if we could again schedule a consultation meeting prior to the broader public release of the proposed update to your wild rice WQS/permitting framework. Fond du Lac would be happy to host this meeting if that is convenient for you.

I look forward to hearing from you,

Nancy Schuldt

Good afternoon everyone:

Hopefully you are all managing to stay warm through this bitter cold snap. We wanted to send

you a quick note to update you on the status of our analysis efforts. The work is progressing well, and at this point we expect to have a proposal that addresses the standard, beneficial use (wild rice waters), and a permitting approach completed as soon as the end of March that we will share with you. So more to come.

Thank you all for your ongoing interest and feedback!

Katrina
